QMB (Qualified Medicare Beneficiary Program)

QMB pays Medicare's monthly Part B premium (\$164.90 in 2023), and Part A premium (if applicable). QMB will also pay Part A and Part B deductibles, coinsurance and co-pays.

Eligibility is based on income and assets, as shown on the eligibility chart on the previous page. Your income may be higher than the limit if you are working and earn wages. The asset limit (excluding your home, one car, etc.) includes bank accounts, investment accounts, etc.

SLMB (Specified Low Income Medicare Beneficiary Program)

This program will pay only the monthly Medicare Part B premium (\$164.90 in 2023). SLMB does not pay for Medicare deductibles and co-payments. To qualify, individuals must be enrolled in Part A and Part B and meet income and asset requirements.

LIS (Low Income Subsidy) Part D Prescription Drug "Extra Help"

The Social Security Administration administers the Federal Low Income Subsidy (LIS) program, also called "Extra Help." LIS helps pay your Medicare Part D prescription drug plan premium, deductibles, and part of the cost of your prescriptions. LIS can help you enroll in a prescription drug coverage plan (if you haven't done so already). Individuals with LIS may switch Part D plans once per calendar quarter during the first nine months of the year only. Eligibility is based on income and assets. Your income may be higher than the income listed on the previous page if you have income from wages.

Senior Prescription Drug Assistance Program (SPDAP)

SPDAP is a state program that provides to eligible beneficiaries a subsidy of up to \$60/month toward their prescription drug plan premium. This subsidy is paid directly to your prescription drug plan by SPDAP.

SPDAP also may reimburse you up to \$2,000 for your out-of-pocket costs in the coverage gap, also known as the donut hole. If you submit your out-of-pocket expense claim by May 31. **Currently, the SPDAP has suspended this benefit.**
